## Are you ready to become a WinCC expert?

▶ Our comprehensive 4.5 day *WinCC Integrator's course* will supply you with the knowledge and tools you need to successfully design and create powerful WinCC applications.

This hands-on course covers the basics, from adding drivers and tags to graphics design, alarming, trending, archive data management, security and reporting. We'll also examine advanced topics such as style guides, tag prefix, pop-up trends & faceplate displays, customized objects, graphics animations and more.

For scheduling and pricing, please visit us at [www.iquestcorp.com](http://www.iquestcorp.com).

iQuest is a Siemens Solution Provider and a WinCC Professional organization. The course is taught by Bob Meads, a SIMATIC WinCC expert with over 14 years of support, integration and development experience with WinCC.

We provide each student their own individual desktop PC loaded with the latest WinCC software. Students also receive a comprehensive take-away Course CD including all class materials and example projects.

Small class sizes guarantee a more effective training experience by maximizing the instructor's personal attention and interaction with each student.

Our classroom features a 50" plasma screen to allow students to comfortably follow the course lectures and illustrations.

Course includes complimentary lunch on Mondays and Thursdays; Coffee, drinks and snacks provided during morning and afternoon breaks.
