Are you ready to become a WinCC expert?

▶ Our comprehensive 4 day *WinCC Integrator's course* will give you the tools and knowledge you'll need to successfully design and create powerful WinCC applications.

This hands on course covers the basics of the latest version of WinCC, from adding drivers and tags to graphics design, alarming and trending, archive data management, security and reporting.

We'll also cover advanced topics such as style guides, tag prefix, indirect addressing, pop-up trends & faceplate displays, graphic dynamics and animation, customized objects, menus and toolbars, and more.

iQuest is a WinCC Professional organization. The course is taught by **Bob Meads**, a SIMATIC WinCC expert with over 20 years of support, integration and development experience with WinCC.

Each student will have their own Laptop PC loaded with the latest SIMATIC WinCC software and a USB Drive with all course material & example projects.

Small class sizes guarantee a more effective training course by maximizing the instructor's personal interaction time with each student. coffee, drinks and snacks provided daily during breaks.

Class will be held at:
Deerfield Corporate Center One
13010 Morris Rd #600, Alpharetta, GA 30004

iQuest, Inc. (Mail Only)
